Defy the Elements, Embrace the **Style**

Metal Lab systems are engineered for superior durability and long-term performance. Manufactured from high-quality 24 or 26 gauge steel, our panels offer exceptional structural integrity while remaining lighter than conventional asphalt shingles. Each system (except corrugated) features a concealed fastener design that protects attachment points from the elements, improving weather resistance and delivering a clean, uninterrupted finished appearance. Metal Lab roofs are non-combustible, fully weather-resistant, and environmentally sustainable, offering significantly greater longevity and recyclability than traditional roofing materials.

MLM150 IN BLACK

Over time, Metal Lab's extended service life results in a lower total cost of ownership compared to other roofing options. Our advanced coating systems are available in a wide variety of finishes, including architectural metallics and a broad palette of solid colours. All Metal Lab finishes are backed by a 40-year finish warranty to ensure lasting aesthetic and performance value.

Roofing Profiles.

ALL PROFILES (EXCEPT CORRUGATED) ARE AVAILABLE IN FLAT, BEAD RIB AND STRIATED.

MLM 100

	Panel Type	Rib Height	Panel Widths	Length	Min Slope	Materials	Installation Details
MLM 100	Mechanical Lock	1"	13" or 21"	2' to Max length*	3/12	24, 26g	Concealed clip system
MLM 150	Mechanical Lock	1.5"	12", 16", 20"	2' to Max length*	2/12	22, 24, 26g	Concealed clip system
MLM 200	Mechanical Lock	2"	18"	2' to Max length*	1/12	22, 24, 26g	Concealed clip system
MLS 100	Nail Strip	1"	12", 16", 20"	2' to Max length*	4/12	24, 26g	No clips or seamer required
MLS 550	Snap Seam	1.5"	19"	2' to Max length*	3/12	24, 26g	Hidden Clip & Fastener
7/8" Corrugated	Exposed Fastener	N/A	36"	2' to Max length*	3/12	22, 24, 26g	Overlap of Corrugation and Fasten

* Max length dependent on freight logistics or on-site panel fabrication.

Roofing Trims.

Metal Lab offers a comprehensive range of trims and flashings designed to finish and seal the edges, transitions and junctions of metal roofing and siding systems. These trims listed below enhance both the durability and visual polish of a metal roof installation by directing water away from vulnerable areas and covering exposed panel edges for a clean, professional appearance.

- A E-Z Vent Ridge Cap**
- B Solid/Hip Ridge**
- C Eaves or Hook Eaves**
- D Gable Cap**
- E Half Gable Ridge Cap**
- F Snowguard**
- G Side Wall**
- H End Wall**
- J Pitch Change**
- W W-Valley or Hook Valley**

Resources and Testing.

We only run our panels with quality merchandise. This means that our product has been tried and tested, proving it to be the pinnacle of **quality** and **style**.

Here are some of the highlights of our metal:

- Class A Fire Rating; 100% impervious to combustion.
- Our PVDF & SMP paints are the epitome of longevity and durability.
- Very short production cycle, with some projects being run on site.
- Most extensive selection of colours & finishes in Canada.
- Made in part from recycled materials, and is 100% recyclable itself.
- 40 year warranty, see website for full details.
